

PATENT
Serial No. 09/632,154REMARKS

Claims 4-8 and 15-25 are pending in this application. Applicant requests consideration of this application in view of the following remarks.

Claims 4-8 and 15-25 stand rejected as being obvious over Shiio in view of Newsbytes, Inc. (the "Newsbytes"). The publication date of Newsbytes is February 14, 1996.

The present application is a continuation of application serial number 08/747,420, which was filed on November 12, 1996 (now U.S. Patent No. 6,219,045 B1), which claims the benefit of provision application number 60/020,296, which was filed on November 13, 1995. As such, the Newsbytes is not prior art to the present application and cannot be used to reject the pending claims. Accordingly, Applicant respectfully submits that the rejection, which is based on the Newsbytes, should be withdrawn.

Nevertheless, even if Newsbytes were to be considered relative to the patentability of the claims of this application, the pending claims are patentable for the reasons set forth in "Amendment A" (filed on February 25, 2003 in the immediate parent to this application).

For the reasons set forth above, all of the pending claims are patentable over the references of record and are now in condition for allowance. An early allowance of the all claims is earnestly solicited.

Dated: April 8, 2004

Respectfully submitted,
